

# Project Groundswell

## Looking and Responding

### 1. Look First

Choose one photograph from the exhibition.

What is the first thing you notice?

---

What emotion or atmosphere does the image create?

---

### 2. Look Closer

Look again more carefully.

What details do you notice about:

Scale (size of things in the image)

---

Composition (what is included in the frame)

---

People / Environment / Systems

---

### 3. What Kind of Climate Action Is This?

Circle the one that best fits the image:

Restoration

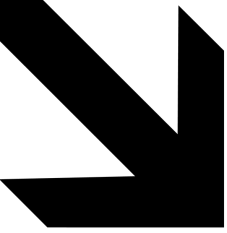

Resistance

Scientific research

Alternative ways of living

Explain your choice.

---

#### 4. Think About Land and the Built Environment

How does this photograph relate to how land is used?

---

---

Examples: housing, farming, energy, nature.

#### 5. Create & Respond

Take a photograph using your phone that responds to this question:

**How does the built environment interact with land or nature?**

Your photograph could show:

- nature and buildings
- empty or changing spaces
- protection or vulnerability
- human impact on the environment

**Sketch or describe your photograph idea below.**

---

---

---

#### Caption Your Image

Write a title or caption for your photograph.

---
